Stable Delicacies of the Season.

DEATH OF MRS. McLELLAND

An Estimable Woman's Estimable
Summons to Her Reward Above.

At 7 a. m., January 8, 1888, death claimed for its own one of the most cultured adornments of Waco society—Mrs. Marie Zell McClelland, wife of Mr. Peter McClelland. She was born in Houston, Texas, only daughter to the distinguished jurist Hon. C. B. Sabin, United States district judge of the Eastern district of Texas. She resided in Houston previous to her departure North, where she received her education at a number of the first institutions of learning located there. Among those may be named Rutgers' Institute, where she was awarded a diploma delivered to her in person by Mayor Hoffman of New York city. She also attended the American and German Institutes of New York, where she acquired a remarkable proficiency in the French and German languages.

At the Moravian Institute, Bethlehem, Pennsylvania, she studied vocal and instrumental music and received her finishing touches of art at the hands of Torralba and Faschella—gifted with vocal powers of an eminent degree, highly educated, and adorned by all the graces of true womanhood she delighted, upon her return to Texas, the people of Galveston by her cultured rendition, when ever classical music contributed to social enjoyment or charity beckoned for her support. She was married on October 17, 1882, to Mr. Peter McClelland, and has since been one of the choicest flowers in the galaxy of Waco society.

Mrs. McClelland succumbed to a protracted illness, culminating in typhoid fever, and leaves behind her bereaved husband, a mother and brother, a multitude of sorrowing friends. Rev. DeHart conducted the impressive service for the dead as ordained by the Episcopal church, of which she was a member. The remains will be buried from her father's residence, Hon. C. B. Sabin, at Galveston, at 2 p. m., to-day.

A Sound Legal Opinion

E. Hambridge Munday, Esq., county attorney, Clay county, Texas, says: "I have used Electric Bitters with most happy results. My brother also was very low with malarial fever and jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying he positively believes he would have died had it not been for Electric Bitters. This great remedy will ward off as well as cure all malarial diseases, and for kidney, liver and stomach disorders stands unequalled. Price 50c and \$1, at all druggists.

An Antimony Mine.

From the St. Louis Republic.

In Arkansas has been discovered an antimony mine, and its product is Col. W. F. Roberts, Jr. Heretofore there have been but three recognized sources of antimony in the world, one in New Zealand, one in Portugal and the third in the Harz mountains in Germany. Arkansas will undoubtedly hereafter take its place as one of the great antimony producers. The mines were discovered in 1857 by Col. Roberts, father. The development only began in the last year. They are located in Sevier county, about sixty miles due north of Texarkana, and are developing a richness altogether unexpected. The ore occurs in fissure veins mixed with quartz in what is called the groundmass formation. It is an altered sandstone—a metamorphic rock. As it is found in the ground it contains about 70 per cent of antimony out of which the star antimony, which looks less than one-half of one per cent, of absolute purity, is easily produced. Col. Roberts has brought to him to St. Louis a number of ingots of the star metal. It is peculiar on account of its remarkable crystallization, which impresses upon the top of each ingot a reproduction of a fern leaf with all of its ramifications. About 15,000 tons of antimony are used in the United States at the present time per year, and the development of the Arkansas mines will bring the supply up to nearly 20,000 tons. It is used in making type metal and for similar purposes, but its great commercial utility lies in the fact that it is a substitute for lead in colors, and for arsenic in both glass and colors. With white antimony a paint can be prepared, which, for a final coating, is very much cheaper and more lasting than white lead. The metal is refined in the same way and treated in like manner afterwards. The Arkansas antimony mine will have considerable effect upon the business of St. Louis, as the ore will be largely handled here and distributed from this point.

The Best Fence Ever Invented.

For farms, orchards, yards, gardens, large or small stock. Superceding all other fences. Portable, close, high, strong, durable and guaranteed pig-tight and bull strong. Prices reduced to \$3.00 to \$5.00 per 100 feet. Discounts on large orders, to agents and dealers. Made in convenient rolls of 100 feet. Freight rate 4th class. Orders for car load lots or less promptly

FAVORITE AND POPULAR

(fence. Nice style for yards and about farms at proportionate advance in prices. Address Texas Fence Co., South Eighth street, Waco.

LEWINE BROS.

New Year's Greeting to Their Numerous Friends and Patrons.

The year 1887 is gone by, and while it has brought its vicissitudes and trials to many of us, short crops to the farmer and dull business to the mercantile community, though many a heart has been given by sorrow and unexpected trouble, still we must not forget that the old year had a great deal of sunshine and joy and pleasure in it. Let us look forward with new anticipations for 1888. Though all our hopes and aspirations may not be realized for the new year, yet we feel that we must gird on new energy, bring out all the latent force, in our natures to meet new emergencies, and thus become better and stronger for the battle of life. What holds good in our moral nature, is applicable to business matters.

With the new year we will strive to maintain the confidence of our numerous patrons, and strengthen their good opinion of us, and use every effort to promote their interests and thus advance ours. With many thanks for their liberal patronage in the past, and hope of renewal in this year.

With you, one and all, a happy New Year.
LEWINE BROS.

The Marriage of Miss Lottie Lyons.

SAN ANTONIO, Tex., Jan. 8.—Miss Lottie Lyons, well known to the press of Texas as the former address of the Del Rio Dot, was married here this morning to Mr. Martin Jones. Mr. Jones is a successful young railroad engineer, and now occupies the position of train dispatcher on the Southern Pacific at San Bernardino, Cal., having been promoted from conductor to his present office. The marriage ceremony was performed by Rev. Dr. Sudder, of the Madison Square Presbyterian church. Mr. and Mrs. Jones took the cars for their future home in California.

Don't

let that cold of yours run on. You think it is a little thing, but it may run into scarlet fever, pneumonia, or consumption. Call this disgusting, pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept healthy and clear of all obstructions and offensive matters. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, lungs and bronchitis, can be destroyed and cured by the use of Doan's German Syrup. If you do not know this already, thousands and thousands of people can tell you. They have been cured by it and know how it is themselves. Doan's German Syrup. Ask any druggist.

Waco Music Co.

Grand, square and upright pianos. Henry E. Miller, the genuine. S. G. Chickering, the genuine. E. G. Harrington & Co., the genuine. Burdett Organs. Palace Organs. Smith American Organs.

Ladies and Gentlemen.

This week we are making a tremendous sale, and we are making great reductions in order to raise cash to meet our obligations. All classes of dry goods, clothing, boots and shoes, clocks, and ladies' and gents' furnishing goods, will be sold regardless of value or profits, in order to realize cash. If you need goods in our line it will be to your interest and profit to come and see us.

Lewine Bros.

"A little fire quickly trodden out, which being sugared, rivers cannot quench." The same may be said of human diseases. A little indigestion, a slight disarrangement of the bowels, a torpid liver lead to serious complications and results. These can be avoided by the use of Morris' Case-rine.

Stockholders' Meeting.

There will be a meeting of the stockholders of the Citizens National Bank of Waco, at their office, Tuesday, January 10, 1888, for the purpose of electing directors for the ensuing year.

IMMIGRATION!

Just a year ago I started the tea, coffee and baking powder business. True, the experience of my predecessors in the same line was anything but encouraging, but I had confidence in myself, having made a success of the business in Galveston, and finding 20,000 inhabitants here all using state-roasted coffee and too high-priced baking powder, I made up my mind to camp here with my battery. The result is this, I am not going to California, and my business gives employment to three men. Fifty grocers buy my goods. Last month two tons of coffee was roasted, ground and sold, some thousands of cans of baking powder, spices and mustard, and considerable tea, etc. I take pleasure in stating that my business is now a necessity, a success and on a paying basis. If men and women make up their minds to patronize home industries and thereby get better and fresher goods, they will make themselves the most influential immigrant agents, possible. Capitalists will not invest a dollar in a city if they find its local industries a failure for want of home support. Thanking the citizens of Waco for their generous patronage, I remain yours truly.
